

dxrt::IModelParser

```
classDiagram
    class dxrt_IModelParser["dxrt::IModelParser"]
    class dxrt_V7ModelParser["dxrt::V7ModelParser"]
    dxrt_V7ModelParser --|> dxrt_IModelParser
```

The diagram illustrates a class hierarchy. At the top is the interface `dxrt::IModelParser`, represented by a white box with a black border. Below it is the concrete implementation `dxrt::V7ModelParser`, represented by a gray box with a black border. A solid blue arrow points from the bottom of the `dxrt::V7ModelParser` box to the bottom of the `dxrt::IModelParser` box, indicating that `dxrt::V7ModelParser` inherits from or implements `dxrt::IModelParser`.
